Lexar

The World's First AI Storage Core

High Capacity | High Speed | Hot Swap

AI PC | AI Gaming | AI Camera | AI Driving | AI Robotics

Technology Announcement

The New Lexar AI Storage Core Built for the AI Era

Three Core Advantages

High Performance

1. AI-Optimized Firmware for Sustained Performance
2. AI-Ready Data Flow
3. World's Fastest M.2 2030/2230 SSD

High Reliability

1. Water, Dust, Shock, Radiation Resistant
2. Power-Efficient Design for Always-On AI Features
3. Reduced Thermal Throttling

High Flexibility

1. Hot-Swappable
2. Scalable Across AI Devices

Purpose-Built for Key AI Application Scenarios

AI-Grade SSD
For AI PCs: Optimized for hybrid AI and offers thermal stability

AI-Grade Storage Stick
For AI Laptops: Expand storage instantly, hot swap

AI-Grade Card
For AI Cameras: High-bandwidth AI capture and processing
